**Happy Birthday Gemini!** For those born **between May 20th - June 19th**

The Key Phrase is: **I Think**. The astrological glyph is the Twins. Gemini is a mutable (malleable, flexible), air (intellect, detached, fleeting) sign located in the 1<sup>st</sup> quadrant (self oriented/personal) of the Eastern Hemisphere of the chart. Because Gemini resides in the 3<sup>rd</sup> house of the zodiac and is ruled by the planet Mercury, communication, thoughts and learning are most important to Gemini. Intellectual stimulation is as basic to a Gemini as water is to a Cancer. There is an inherent need to know and understand just about everything. The sign of Aries inhabits the 1<sup>st</sup> house of the natural zodiac. That first house is the cusp of the Ascendant or as many already knows as the Rising Sign. Because Gemini arrives immediately after the earthy 2<sup>nd</sup> house Taurus who asks, "What should I possess or own and how will I meet my security issues"? Gemini desires to communicate and formulate ideas about what those security needs are and to present them to other; most often in the early school years when we accumulate a lot of information about life and the world in a short time frame. Gemini wants to collect data and information about everything. It is not uncommon for a Gemini to be watching television, listening to music and reading a book all at the same time!

Gemini is a dual sign...dual meaning the astrological glyph (symbol) for Gemini looks like this "II"...like the Roman Numeral II - The Twins. Duality means to have a double nature, character or purpose and/or is composed of two parts. Gemini's certainly has the reputation for the ability to change their personality in an instant and can scatter their energies. Their duality enables them to see two sides of problem or situation and to project outward, the two aspects of their persona as well.

Gemini resides in the 3<sup>rd</sup> house of the zodiac wheel and so relates to siblings, the neighborhood, early educational experiences, teachers, short distance travel and automobiles. If you have no planets in your 3<sup>rd</sup> house, look to where the ruler of that

house (the cusp ruler) is located and, along with its aspects, will give you a glimpse of where your communication style and learning experiences are found.

Gemini as related to health issues coincides with the lungs, shoulders, hands and fingers and the nervous system. Respiratory troubles may be more common with Gemini. Sometimes Gemini's just can sit still because they have a lot of physical and mental nervous energy. Gemini's are distinguishable by their youthful exuberance. Gemini always looks a bit younger than their chronological age. Some accuse Gemini of being fickle and/or gossipy....well, Mercury, Gemini's ruling planet does have wings and was considered to be a "messenger". It isn't always about "gossip" and more likely about the need to communicate and share information.

Gemini's polar opposite (3rd house - communication, thoughts, ideas, early education, short distance travel and siblings) is the mutable, fire sign Sagittarius (9<sup>th</sup> house- higher learning, long distance travel, publishing and the law). The integration of "my ideas and beliefs" versus "other's ideas, beliefs and philosophies" is one life lesson for Gemini, also contingent upon other areas of the birth chart.

**Famous Gemini's: Happy Birthday!** My beautiful daughter Dana, May 21 ☺, Clay Ostwald, Musician/Producer - Miami Sound Machine ☺, June 3<sup>rd</sup>, Paul Gauguin, French post-impressionist and PRINCE, singer/Songwriter both on June 7<sup>th</sup>, Frank Lloyd Wright, Visionary Architect and Francis Crick co-discoverer of DNA and Noble Prize winner both on June 8<sup>th</sup>, Cole Porter, Broadway Musical Composer and Michael J. Fox, Actor both on June 9<sup>th</sup>, one of my favorites Jacques Cousteau, French Oceanographer, Writer/Film Producer, and my brother Raymond Valente, June 11<sup>th</sup>, ☺ Anne Frank, Writer of the Diary of Anne Frank, June 12<sup>th</sup>.

### THE LOVERS - Number VI - Gemini

The Lovers card depicts the unclothed bodies of two lovers, a man and a woman. They bare their souls' to each other. The man gazes upon the woman while the woman looks up to the spirit, Archangel Gabriel. As the angel hovers over the couple, arms and wings spread as if blessing the pair. The sun shines above his head, bringing warmth and security and light. The leaves on the tree mirror the hair on the Angels head...a symbol of the fires of passion burning deep within the lovers' soul. This sun and fire is also symbolic of our life force and our impulse to create. The fertile grass beneath their feet, and fruit on the tree suggests growth and happiness.

However, with all the cards or aspects in a birth chart, there can be negative manifestations of the symbolism of this card. The snake coiled in the tree behind the woman is a gentle reminder of the story of Adam and Eve and the temptations we may be faced with. There are 3 people in this card...not two. In this regard, the third person could be an intruder to the relationship.

Triangulation can occur when there is a choice to be made between two lovers. The Lovers card "is" a card of choices and decisions. Choices can be between sexual love and spiritual

love although they are closely related. The card can imply the struggling temptation between our immediate material desires versus staying true to ourselves on our spiritual path. There can be a conflict between different forms of attraction. Gemini is a sign of duality and choices.

When we see the Lovers card in a reading, it can augur the coming or presence of a Soul Mate relationship. It mostly represents our most intensely intimate and sexual relationships. Because this is a card of choices, when we see it in a reading it could test our personal beliefs as well as our values within that relationship. We may need to choose between what is right and what is wrong for us. This could be an ethical or moral choice. Please see what I have written about **THE DEVIL** card which is the symbolic opposite of the **THE LOVERS** at [www.FuchsiaStars.com](http://www.FuchsiaStars.com) site listed under Articles/Venus/Pluto.

In the Lovers card, the urge for union is rather powerful and it takes love to the highest spiritual level, symbolic of the Angel. When The Lovers appear, it always refers to a relationship based on a deep, unwavering love. There is no force more powerful. It doesn't always have to be a sexual relationship although the mutual sexual attraction can be unrivaled.

The Lovers card and the number 6 are all about unconditional love, strength, wisdom and compassion. How often do we give love without judgment or strings attached to it?

COMPLANTING MOON (Deer)

In Native American Astrology, those born from May 21 - June 20th are born under the Complanting Moon and their animal totem is the Deer. Their colors are green and white and they are included in the Butterfly Elemental Clan.

If they learn to develop them, Deer people can have healing abilities and are usually very intuitive. They have sensitive hearing and do not like loud noises. Deer are gentle, loving and kind animals. They often have the ability to create items of beauty from ordinary objects. They are resourceful people. Deer people also make good friends. They are very lively in speech and in actions and they have a very high energy level. Deer are known for their beauty, grace, sexuality and cunning. Deer is the epitome of both masculine and feminine energy and suggests their dual nature. Deer people have the ability to captivate others with their eloquent speech as well as with their beautiful bodies.

As part of the Butterfly Clan, this increases their chance for "flitting" from one flower to the next or from one idea to another examining each and every thing as they flutter along. .

**June, 2005**

**Our Moon changes signs approximately every 2 \_ days.**

**June 4 2005 - Venus enter Cancer then Leo on June 28<sup>th</sup>.** Venus in Cancer is romantic and sensitive. With Venus in cancer, security and building a home with your partner is important. Family loyalty and a love of cooking is indicated. Sentimentality is heightened in this sign. In Leo, Venus wants to be adored and will take center stage. With Venus in Leo you seek praise and devotion. Feelings are warm and affectionate. Love of possessions and self indulgent pleasure seeking is possible in this sign.

**June 5, 2005 Jupiter Retrograde (rx) turns direct at 8 Libra 55** -In the Venus ruled sign of Libra, Jupiter is expansive, loving and warm in love matters. Relationships were reviewed and highlighted while Jupiter transited retrograde in Libra. While retrograde the actions of Jupiter are internalized. According to Astrologer, Lynn Koiner, "Jupiter rules role playing in order evoke a positive external reaction. When transiting Jupiter is afflicting natal planets, you will find yourself dealing with phoniness in both yourself and others. When Jupiter is retrograde, you should evaluate how you are not being honest with yourself because you are playing a role that is disloyal to your true self. When opportunities arise while Jupiter is retrograde, they are the result of seeds planted in the past from people met or connections made in the past."

**June 6, 2005: New Moon 16 Gemini 16** - A New Moon is always a good time to start a new project or work on areas of your life you've passed by. New beginnings are associated with New Moons. In Gemini, your neighborhood, siblings, communications, messages, visits, ideas, teachers and learning, automobile and short trips will be highlighted. The shoulders, fingers and lungs are ruled by Gemini

**June 11, 2005: Mercury enters Cancer then Leo on the 28th.** Mercury in Cancer is practical and stable yet at times rigid in thought. Cancer is a cardinal (action oriented) water (emotions) sign and in Cancer has empathy and the ability to act on feelings. Mercury in Leo has a need to be heard and will embellish to get their point across. With Mercury entering Leo on the same day that Venus enters Leo, hearing news about a relationship or someone you are fond of is possible.

**June 12, 2005 - Mars enters action oriented Aries** - In fiery Aries, Mars feels comfortable and at home. You become more forceful, assertive, self confident and even aggressive with a need to take action. With Mars in a tense (square) aspect to transiting Mercury in Cancer, make sure you say what you mean to say without stepping on toes. Beware of belligerence on your part or in those you encounter at this time.

**June 14, 2005 - Uranus in Pisces turns Retrograde** - Uranus starts the month at 10 Pisces 41' and will end the month at 10 Pisces 40'. For instance, when Uranus transits opposite natal Venus, you may encounter a new love or the break up of an existing relationship. If you have a daughter, she may prove more rebellious or in need of freedom. If Uranus is transiting opposite natal Mercury, you may feel more restless and not require as much sleep. You may have sudden flashes of insight. Do not be surprised and the quickness to which you act and respond to events and people in your life when Uranus makes contact with your personal planets. With Uranus in backward motion, the need to turn inward is greater.

**June 21, 2005: Sun enters Cancer** - Happy Birthday Cancer! Cancer is cardinal water. We will look forward to discussing the sign of Cancer in the next issue of Lunar Notes.

**June 22, 2005: Full Moon 00 Capricorn 51'**. A full moon is a culmination of energy from the last New Moon, approximately 14 days earlier. In the cardinal sign of Capricorn, this is a positive time to manifest what you desire in your career and public reputation. Real Estate transactions and parenting issues may take priority.

**Saturn in Cancer** - Saturn starts the month at 24 Cancer 35'. Saturn is all about our physical structures, restrictions and limitations as well as boundaries. Our outer skin is one of these boundaries that keep us "together". Saturn rules the skin, knees and skeletal structures. Saturn is also about our commitments to our personal structure. With Saturn in Cancer, the planet in opposition (Capricorn) and in square (Libra, Aries) will be in for some lessons in the areas of life (houses) these signs reside in your birth chart. If you have not acted with integrity or been responsible, Saturn will make you aware of it by creating some limitation, boundary or lesson to re-learn. If you have been working hard, Saturn will possibly set up a task in which you need to prove yourself. Saturn rewards those who have worked hard through difficult times. Saturn ends the month at 27 Cancer 57'.

**Neptune continues to retrograde beginning the month at 17 Aquarius 33'**. If you have planets in conjunction (the same sign and approximately the same degree) opposition to this degree (Leo) or in square (Scorpio and Taurus) you will feel the illusive effects of Neptune's transit the most over time. The dissolution of boundaries and illusions or the uncovering of the truth will be revealed when Neptune transits your personal planets. Neptune ends up at 17 Aquarius 10 by months end.

**Pluto retrograde starts the month at 23 Sagittarius 30'**. Pluto is in a fire sign burning holes in belief systems that no longer suit our life purpose. Pluto is all about personal power and regeneration, throwing out the old and bringing in the new, oftentimes after a complete overhaul! Pluto in Sagittarius is dogmatic and reveals religious, political and philosophical truths. Purging false beliefs in these areas of life has been ongoing. When Pluto's energy turns inward we begin to own our own power and looking within for a better understanding of our subconscious urges. Inward there is incredible regenerative psychological power. Pluto will end the month at 22 Sagittarius 45'.

### **SABIAN SYMBOL'S:**

For those of you unfamiliar with the Sabian Symbol, the original Sabian Symbols were written in 1931 by Marc Edmond Jones. Dane Rudhyar later revised the symbols and others have re-interpreted the symbols periodically. Lynda Hill writes one of my favorite modern interpretations. The basis of these symbols is derived from the 360 degrees in the zodiacal circle. Each sign of the zodiac: Aries, Taurus, Gemini and so forth, is comprised of 30 degrees. Since there are 12 signs in the zodiac, that would be 12 signs X 30 degrees = 360 degrees. There are 360 Sabian Symbols and each symbol coincides with and describes each degree of the zodiac. If you know your birth chart, utilizing these symbols for each of

your planetary placements is rather telling and will provide you with greater insight into your own character traits and motivations.

#### **NEW MOON June 6, 2005 - 16 Gemini 16'**

New Moon = New Beginnings. New Moons augur a time to start new projects. Seeds (ideas and positive energy) planted during a New Moon will culminate and flourish during the Full Moon. In the sign of Taurus, you might start a way to derive additional income. Reevaluating what you value and your security needs may be highlighted.

#### **SABIAN SYMBOL for 17 GEMINI:**

##### **THE HEAD OF A ROBUST YOUTH CHANGES INTO THAT OF A MATURE THINKER**

A change in your thoughts is happening with this symbol. Perhaps you are finally maturing in your thought process, taking responsibility for the thoughts that inhibit and restrain you. Your old way of thinking no longer serves you. This is a time to entertain new ideas. It is time for a more mature attitude and to "grow up"!

Some event may have caused you to change your thinking almost overnight whether you like it or not.

Negatively, you may be clinging to old ideas afraid to change your way of thinking. Peter Pan didn't want to grow up and take responsibility as an adult. How does this symbol resonate with you? Do you have planets in the sign of Gemini?

#### **FULL MOON JUNE 22, 2005 - 00 Capricorn 51'**

With a Full Moon, we see a culmination or coming to a head the seeds planted during the previous New Moon cycle. Lunar ruled Cancer is usually more affected by a Full Moon and especially in her own sign. Since the June 22nd Full Moon falls in the sign of Capricorn, this lunar energy will be emphasized. Capricorn is a cardinal earth and resides in the 10th house of the natural zodiac, ruled by Saturn. If this Full Moon conjuncts (same approximate degree) or opposes (180 degrees opposite) a natal planet, you will be more likely to experience the affects of this Full Moon in the area of life (houses) it is located in your birth chart.

#### **SABIAN SYMBOL FOR 01 CAPRICORN:**

##### **AN INDIAN CHIEF GAINS RECOGNITION AND POWER FROM THE ASSEMBLED TRIBE**

A Chief is a leader. When the Chief speaks the tribe pays attention. He is in an "elevated" position for all to see his authority. In this symbol, the Chief is 'claiming' recognition. Sometimes it isn't automatically given. We often need to rise up to others, stand before them in courage to claim the recognition we deserve.

Negatively, perhaps you are holding onto beliefs with a battle of wills. It is important to believe in yourself, to be true to yourself regardless of what others say to you. When we assume responsibility and authority when most important, we gain respect of our peers.

Beware of demanding attention to stroke your ego.

SOUL MATES/RELATIONSHIPS:

Sick and Tired of this world
There's no more air
Trippin' over myself
Goin' nowhere
Waiting
Suffocating
No direction
...And I took a dive

And on the way down
I saw you
And you saved me
From myself
And I won't forget
The way you loved me
On the way down
I almost fell right through
But I held onto you

I was so afraid
Of going under
But now
The weight of the world
Feels like nothing, no, nothing

- "On The Way Down" - RYAN CABRERA

TEACHERS/MENTORS, WE MEET ALONG THE WAY

Discussing the sign of Gemini would not be complete without also looking at the ways in which we communicate with people who enter into our lives. Since it is my belief that everyone we meet, we meet for a reason, for a purpose, not often known to us at the time, it is important to look back on the ways they have affected our lives, and directed our future choices to aid in our personal growth.

Gemini craves all form of stimulation and has a need to communicate. Because Gemini rules the third house of thoughts as well as teaching, I wanted to take some time to focus on the most important people in our lives..our teachers and mentors. Teachers aren't only those we

meet in a formal classroom. They can often be someone we meet at work, at the gym or these days, online. They might be a friend or a friend of a friend, an acquaintance. Whoever they are, they may relay a 'message" we need to hear at a particular time in our life. That time could be during a crisis, during a difficult time, after the loss of a relationship, a loved one or a job. We might be at a crossroads in our life and something they say "clicks". Their "message" is synchronistic with our experience and seems to be exactly what you needed to hear at that particular moment in time. It could be at a time when you feel a loss of hope or just 'lost". Teachers or guides help you to find your way. Something they do or say moves you to take steps to heal in the right direction. Mentors are similar. The definition of a mentor is a wise or trusted teacher. Mentors teach by example utilizing experiences that mirror your own. We don't always know the affect they have on our lives until weeks, months or even years later. The message imparted might even be subliminal, not having a conscious affect, yet working ever so slightly, at the needed changes that must first take place on an unconscious level, before we can outwardly manifest them. Often later we reflect on how "fated" a conversation was or how that passing relationship really did teach you an important lesson. Everyone you meet teaches you something about yourself. Mentors are all around if you choose to understand why they entered your life. They may often mirror back your likes and dislikes, your feelings, your thoughts and your desires. They may pose questions that are important for you to answer. You attract what you need for your own personal growth.

I've been so fortunate to have attracted so many teachers, mentors and guides who have assisted in my own personal and spiritual growth. With each passing relationship, whether brief or long, there has been a lesson to be learned. It is important to reflect upon what the lesson might be, what you needed to learn, what direction you are being re-routed as a result of it. The past few weeks have been especially difficult for me as I had to make a difficult decision. Since I know you are reading this I wanted to extend a special thank you to Diana and her husband Michael for all of their support, phone calls and e-mails mirroring back what I needed to hear to pull me out of a dark place.

Let the month of June be the month you honor the Mentors, Teachers and Spiritual Guides you've encountered in your lifetime. Without them, you wouldn't be in "this place".

Since the May 8<sup>th</sup> Full Moon falls in the sign of Sagittarius, this lunar energy will be emphasized. Sagittarius is a mutable, fire sign and resides in the 9th house of the natural zodiac, ruled by Jupiter. If this New Moon conjuncts (same approximate degree) or opposes (180 degrees opposite) a natal planet, you will be more likely to experience the affects of this Full Moon in the area of life (houses) it is located in your birth chart.
